

# GlobalFC Futbol.Community.

COMPASSION. COLLABORATION. COMMUNITY.

Over the past 7 years, Global FC has positively impacted nearly 1000 refugee and under-served youth from low-income families through year-round sports, education, and mentoring programs in the Historic Northeast neighborhood of Kansas City, MO. We support this community through academic assistance, mentorship, civic engagement, cultural exchange, and family support initiatives. We strive to promote a culture that emphasizes unity, compassion, love and excellence.

Every child in our program has access to a community of supporters, including mentors, tutors, coaches, team managers/mentors, drivers, teachers, social workers, and community resource partners to celebrate, support, and hold them accountable as rising community ambassadors.

## SOCCER

We use soccer as a vehicle for transformative impact, providing youth ages 12-18 with quality soccer opportunities and access to the best facilities, leagues, and tournaments in the city. We leverage soccer to encourage school and behavior performance and to build players into ambassadors.

## EDUCATION

Our Education Program closes the opportunity gap for students by utilizing a holistic approach to learning, enriching the educational experience so students can achieve their highest potential. Youth are required to actively participate in the various Education Program initiatives.

## MENTORING

We harness the power of relationships to guide and uplift youth, holding them accountable as rising ambassadors. Our three-fold impact model serves to positively impact the mentor, the youth, and the greater community. The various mentoring roles connect youth to relationships with caring adults who inspire and support them.

## WHAT MAKES GLOBAL FC UNIQUE?

- We fill major gaps for refugee youth in the areas of quality soccer opportunities, after-school education support, and mentoring.
- We provide a year-round, long-term approach to youth development.
- We engage and support the family unit.
- We advocate as a voice for the youth in the community, home, and school.
- Our program model takes a holistic and collective approach to youth development.
- We provide transportation to all programming, removing transportation barriers.
- We develop community-minded servant leaders.
- We bridge and educate communities.
